RE: The Hayden Hotel

The HDN HTL is a +/- 50 key hospitality project planned adjacent to Yampa Valley Regional Airport, serving travelers to and from Routt County. The hotel will marry modern design elements with the authentic character of the Yampa Valley, creating a comfortable and regionally grounded experience. Strategically located to support access to Steamboat Mountain Resort and other regional destinations, the project enhances overnight connectivity and year-round tourism. The Colorado based project team is committed to thoughtful design, strong local partnerships, and long-term value for the Hayden area.
